The CDC defines a *credible exposure*/close contact of concern

- You were within 6 feet of someone who has been infected with COVID-19 for at least 15 minutes in a day, *within 2 days of their on-set of symptoms or within 2 days of when they were tested, or*
- You provided care at home to someone who is sick with COVID-19
- You had direct physical contact with the person (touched, hugged, or kissed them) or you shared eating or drinking utensils or
- They sneezed, coughed, or somehow got respiratory droplets on you

RECOMMENDATION BY ADOM

Carefully think back where the patient has been and with whom the patient has had contact in the past 2 days. Fill in the dates below and working backwards, list names and contact information, if available, of close contacts (if any) other than persons in patient's household on the 2 days before symptoms began.
